

Congress of the United States

Washington, DC 20515

January 27, 2017

President Donald J. Trump
The White House
Washington, DC 20500

Dear President Trump:

We are writing to congratulate you on your election and look forward to working closely with the very capable people you have selected to serve on your team. We are eager to collaborate with you on a broad range of solutions to enhance our economy and strengthen our national security.

We appreciate and respect your reimplementing and expansion of the Mexico City Policy, as you have already demonstrated your commitment to a consistent, government-wide policy: taxpayer dollars should not fund abortion or the abortion industry—either domestically or internationally. We also appreciate the presence of Vice President Mike Pence at today's March for Life, the highest ranking official to ever attend the rally. The actions of your first days in office signal strong support for the pro-life movement and we look forward to working with your Administration to advance our common goals.

The alignment of pro-life majorities in Congress and your election to the White House presents a critical opportunity to protect our most vulnerable from the brutal act of abortion and affirm that women deserve better than abortion.

We support—and are deeply grateful for—your commitment to **nominating pro-life justices to the U.S. Supreme Court**. Forty four years ago the Court stripped away protection for unborn children and their mothers, and since then nearly 60 million precious lives have been killed through abortion—a number that equates to the entire population of England. Abortion is violence against children and injures women. Women and children deserve better—much better. Encouraged by your strong commitment to place pro-life justices on the Court, we look forward to a day when we have a Court that recognizes the danger of abortion to both women and their babies.

We share your commitment to **enacting the *Pain-Capable Unborn Child Protection Act***, which would end painful late abortions nationwide. We know that children suffer excruciating pain from dismemberment abortion: Piece by piece, a child is literally pulled apart—this is the reality of abortion. While some children in America are afforded state of the art care through fetal surgeries and well-equipped NICUs, other children at the exact same stage of development are ripped apart in the 6th, 7th, 8th and even 9th month of pregnancy. Recognizing the medical evidence that unborn children feel pain, the *Pain-Capable Unborn Child Protection Act* would establish affirmative protections for these children before birth.

We share your commitment to **ending taxpayer funding of the abortion industry**. Planned Parenthood is big abortion—this organization alone has killed over 7 million innocent babies, about 320,000 children per year, all while receiving roughly \$500 million in annual taxpayer funding. In 2015 Congress sent a budget reconciliation bill to President Obama that disqualified the nation's largest abortion provider, Planned Parenthood, from receiving Medicaid funds as long as it continues doing abortions. Those funds would have instead been reallocated to

community health centers, which provide a broader range of preventive health care services to women and outnumber Planned Parenthood clinics by a margin of 20 to 1. President Obama vetoed this bill. We look forward to your signature enacting this life-affirming policy when Congress sends you its budget reconciliation bill early in 2017.

We share your commitment to making the **Hyde Amendment permanent and government-wide law**. The Hyde Amendment has saved an estimated 2 million innocent lives by stopping taxpayer dollars from being used to fund most abortions and abortion coverage through the Medicaid program. Among its many failures, Obamacare does not conform to the Hyde Amendment, and so taxpayer dollars are flowing to over 1,000 abortion-covering health plans according to a 2014 audit. We look forward to working with you to repeal Obamacare and replace it with a program that does not include subsidies for abortion.

Millions of Americans share our commitment to these goals and are eagerly waiting for us to do our part after this historic election. We look forward to advancing these efforts with you, and making America a place where unborn children and their mothers are treated with compassion and justice.

Thank you for the important consideration and leadership you will provide to these concerns.

Sincerely,

Robert Pittenger
